100% Job Success

4+
YEARS

MARTIN PETKOV,
COO at Effortel, Belgium

JEVERA had **substantial expertise** in the field we needed (business application orchestration) as well as telco and banking experience, which are the two industries where we were mainly operating at the moment. Thanks to JEVERA's work, we're able to serve a vast amount of transactions"

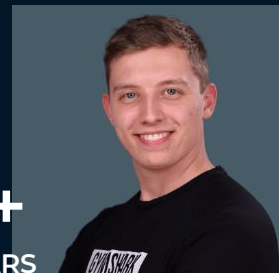

7+
YEARS

ERIC WRIGHT,
CIO at SEAD Software, USA

JEVERA has helped us develop our telco SaaS product. Our idea was in its early stages when they came into the project, so they **first helped us better define our requirements**. Then, they jumped into the software development process.

KARL HEINZ FRANKESER,
CTO, Ticinocom, Switzerland

3+
YEARS

We have worked with several people from JEVERA, as over a 6 year period there will always be turnover. The great thing was that **each person that joined the team seamlessly fit in** and immediately made an impact.
